⚠ 【 **Tomahawk MX Chassis with Shortened Wheelbase 短軸房車版**】
In order to achieve a greater scale realism, the wheelbase has been shortened by 18mm to 247mm to fit some shortened wheelbase touring car bodies. By changing the rear suspension arms, rear upper links and rear diff outdrive cups, this car can be compatible with an extensive range of bodyshells, allowing almost endless customization possibility.
安裝短軸版房車車殼時為達成外觀最大像真度，Tomahawk MX 亦提供短軸版零件以供更換.藉由更換後下擺臂,後上拉桿及後傳動軸套可將軸距縮短至247mm(與長軸版差距18mm),此種可變式軸距設計可滿足不同車殼之安裝以達大最大之車殼共用性及改裝彈性.
